

MUDAH.MY VINTAGE & CLASSIC CAR REPORT

METHODOLOGY

The Mudah.my Vintage and Classic Car Report presents a curated list of vintage and classic cars listed for sale on Mudah.my between January and December 2019.

DSF's Unique and Rare Car Picks

Mudah.my may have already established its dominance in the automotive segment, but did you know Mudah.my is also the go-to place for vintage, rare, and classic cars? With that in mind, we've enlisted the outstanding insight of car aficionado and automobile expert – Daniel Fernandez – to add a classic twist to our automobile report. Let's dive into eight rare and classic cars listed on Mudah.my in 2019.

Expert Tip

Vintage cars offer up timeless beauty with some remarkable history to go with it, but the wear and tear of that history can sometimes be hidden. Our expert is clear – always undertake a thorough check when sealing the deal on a rare or classic car.

Daniel Fernandez is one of Malaysia's leading voices on everything automobile and a respected authority on the automobile industry. He has over a decade of experience as both Founder and Managing Editor of top motoring news and car reviews website dsf.my, and has been a voice of the automobile airwaves since 2018 with his popular show on BFM 89.9.

The Jaguar E-Type is the kind of car James Bond might pull up in when his Aston is in the garage, and you'll be pleased to know that it was found on Mudah.my. "This is as good as it gets today," says Daniel, in reference to this particular fully-restored E-Type, making this a rare entry into the collectables market.

1961 Jaguar E-Type V12 COUPE

1954 Packard Clipper Deluxe

If a person looked this good at 66, we'd ask for their secret. The secret with this particular Packard Clipper Deluxe is a tale of outstanding workmanship and lifelong care of some classic car lovers. But what makes this even rarer is the fact that it was once owned by Malaysia's first Finance Minister, Colonel Tun Sir Henry Lee. This is a very rare car indeed according to Daniel, and a real gem to find in the market today. You'll pay the price for that exclusivity, but that classic style and historical ties makes for a price worth paying for many.

Mercedes has a reputation for excellence, and that reputation is built on foundations like the stunning Pagoda 230SL. Our car expert is quick to highlight that finding a car like this - with its original interior condition and parts and in good drivable condition - would be a real win. Of course, the *real* winner is the person with the chance to cruise the streets in a Pagoda 230SL.

1967 Mercedes Benz Pagoda 230SL

1997 Pajero Evolution 3.5 V6

This car may not be a “classic” per se, but rather a rare and highly desirable performance SUV. Daniel says the popularity of this automobile is built on the daredevil reputation emerging from the early Jackie Chan movie *Who Am I?*. Only a limited number of these models were produced, and it was initially built as a means of sneaking into the Dakar Rally’s production-vehicle T2 class. Not only did the Pajero Evolution win its class, it bagged the top three spots in 1998!

Spotting a Volvo 123GT is a rare treat according to Daniel. Why? Well, the 123GT is the second-rarest production Volvo behind only the P1900, and while there are no confirmed production numbers, not even from the Swedish automaker themselves, conservative estimates have placed production at just under 1,500 units. When it comes to rare cars, it’s down to balancing up that willingness to pay against the desire to buy. If you’re a lover of vintage Volvos, you now know that Mudah.my is your go-to spot.

1995 Volvo 123GT

1965 MG Midget Classic Sports

This MG might be a Midget, but it’s made a big impression on our expert. “The fact that this classic roadster is being sold by its owner and not some used car dealer is great. It’s best to buy classics direct from the owner, as you can tell the love they have for their car.” We can appreciate the passion that goes into an awesome automobile, especially one as eye-catching as this.

Whats a classic car show without a Ferrari? The Ferrari 308 GTS is something you may recognise from the 1980s hit series Magnum P.I., naturally making it one of the most iconic Ferraris of the '80s. Daniel rates this as a true rare and classic sports car, and an excellent find if sold in flawless condition. Something definitely worth getting excited about!

1983 Ferrari 308 GTS

1966 Mini Austin Morris

"It's not easy to find these old British sedans in good condition anymore. However, they are really not collectables like most other British cars from the same era," says Daniel. This British classic is more of a passion project than an outright collectable, meaning emotional connections are more likely to drive demand than pure collectability. Discovering this iconic car in mint condition is still an outstanding find for any major Mini-lover.
